THE OREGON LION (USPS NO. 119-630) is published monthly for $7 per year in-state, $8 per year out-of-state by Lions Club International, Multiple District 36, at 1075 Washington St. #212, Eugene, OR 97401.

Periodical postage paid at Eugene, OR and additional mailing office. Postmaster: Send address changes to: The Oregon Lion 1075 Washington St. #212, Eugene, OR 97401.
2019 - 2059: Keeping the Promise for the Next 60 Years

As our organization embarks on the next chapter of our story of helping people in need of sight and hearing services, we invite you to take a look back at 2018-19: A year marked by the celebration our first 60 years of service and a legislative victory which will enhance the vision health of Oregon children for years to come.

We invite you to partner with OLSHF on one or more of our sight and hearing programs in one of the following ways:

- Sponsor a school vision screening and help us refer Oregon students for comprehensive eye exams and new eyeglasses
- Support an Oregon Vision Coalition (OVC) eye examination event and give the gift of sight to Oregon’s most vulnerable residents
- Help an Oregonian in need receive a hearing exam and new hearing aids, thereby restoring the world of sound
- Make it possible for a person in need to receive vision surgery and/or treatment, helping them return to work and support their family
- Schedule an OLSHF representative to speak to your business, group, or club and hear how you can help us Keep the Promise!

As you turn the pages and see just a snapshot of the impact that we had this past year, we hope you’ll be inspired to contact us to let us know that you’d like to enhance your own relationship with OLSHF or embark on your own journey with us as a partner.

The next 60 years promises to be an exciting trip and we hope you’ll join us!
The Lions Eyeglass Assistance Program (LEAP) was launched in 2013 by OLSHF to meet the increasing demand for help with vision exams and eyeglasses. In partnership with Lions Clubs all over the state, we steward the only program in Oregon that offers assistance with refractive eye exams and new eyeglasses.

In 2015, OLSHF built the LEAP Optical Finishing Lab to produce high-quality, low-cost eyeglasses for people in need. Since then, we've made 7,684 pairs of glasses and saved Lions Clubs approximately $476,000.

Pamela struggled without glasses for three years after her old pair broke. When our LEAP Lab provided her with new, high-quality, low-cost glasses, she was overjoyed to see the world around her clearly again. “I have so much more confidence in all areas of my life,” she said.
The ROAR! program supplies pre-qualified, low-income Oregonians with hearing exams and hearing aids (refurbished and new) through partnerships with RJS Acoustics, Starkey Hearing Technologies, Sonic Innovations, and local hearing professionals throughout Oregon.

ROAR! reaches underserved urban and rural communities all over the state with our mobile events in partnership with Dr. Todd Landsberg of South Coast Hearing Aid Center in Coos Bay and over 15 Lions Clubs throughout Oregon. Clients are pre-approved and appointments are set through OLSHF and participating Lions Clubs.

Owner and hearing specialist Max Clark has been in the hearing aid business for over 25 years. Gateway Hearing partners with more than 15 Lions Clubs and has dispensed 250 hearing aids in the last three years, providing Oregonians with life-changing hearing aid assistance. Our partnerships with local providers are crucial to the health of our communities.
The Patient Care program helps Oregonians receive the sight or hearing surgery and treatments they need. With generous partners like Ashland’s Retina & Vitreous Center, Legacy Health Systems, and more than 40 others all over the state, last year we assisted 122 people who could not otherwise afford expensive treatments and surgeries.

One of the treatments we provide assistance with is corneal cross-linking, a surgery to treat keratoconus. Keratoconus is a progressive eye condition where the cornea thins and gets weaker over time, distorting vision, and possibly leading to blindness. Cross-linking is the only treatment that can stop keratoconus from getting worse, but because it is a relatively new procedure, insurance companies often decline to cover it.

Josh, left, during his cross-linking procedure with Dr. Mike Straiko at Devers Eye Institute. Keratoconus had affected Josh’s ability to drive, work, and experience the busy life he had built with his young family. Insurance denied coverage for the surgery—but OLSHF, Devers, and the Baker City Lions were there to make sure Josh received the care he needed.
OLSHF represents the Oregon Chapter of the Mission Cataract USA Program, which partners with ophthalmologists to deliver free cataract surgeries to people of all ages who lack the means to pay for this critical care, or do not have qualifying insurance.

12 patients received donated cataract surgery

30+ ophthalmologist partners
(see page 20 for full list)

Guadalupe (left) is helped up from the operating table after her cataract surgery with Dr. Matthew Neale of Eugene Eye Care. Wilder (right) receives his evaluation at Pacific Cataract and Laser Institute. He had noticed his vision deteriorating, and eventually it reached the point where he couldn’t drive or work.
OLSHF administers the Lions Eyeglass Recycling Center (LERC) for the state of Oregon. With Lions Clubs, we collected and sorted over 187,000 pairs of used eyeglasses. Of those, more than 46,000 were able to be refurbished by women in Coffee Creek Correctional Facility’s paraoptometric program. We partner with nearly 20 organizations to distribute these eyeglasses all over the world.

One of our community partners is AMIGOS, a group of students, faculty, and doctors at Pacific University College of Optometry provide care and refurbished eyeglasses to people all over the world. AMIGOS traveled to China, Senegal, Belize, and Costa Rica this year to serve nearly 1,700 patients, working with local physicians in remote areas and overburdened clinics to provide a spectrum of vision care to those in need. See page 20 for the full list of our LERC partners.
The Low Vision Clinic (LVC) provides educationally-focused low vision exams for children all over the state. Dr. J.P. Lowery, the LVC optometrist, evaluates, consults, and provides services wherever they are needed. Last year, these services were provided to 133 children at 22 separate locations throughout the state with Dr. Lowery traveling approximately 4,000 miles.

Last year we provided 25 standard optical low vision aids to children and their families free of charge. Thanks to continued state funding, the LVC can purchase higher quality optical and electronic devices that can be trialed and dispensed through clinical evaluations. This means that children with more severe vision loss now have greater opportunity to access print and other learning media.
The **OLSHF Hall of Fame** is an annual event for Lions to gather and celebrate the legacy of their achievements in the community. The 35 Hall of Famers have collectively added to the success of the Foundation’s stability and sustained our mission to provide access to sight and hearing assistance programs.

Individual Lions with a minimum of **10 years of service to the Foundation** in a leadership or volunteer service role may be nominated to the Hall of Fame. Awards are given to one person per year in the posthumous category and two per year (except in the case of a tie) in the living category.

This year we inducted new members **Dr. J.P. Lowery, Jan Stewart, and Russ Gilmore** (posthumously). Russ was a former Foundation Chair and played a critical role in long-term investment and estate planning development. Dr. Lowery is a faculty member at Pacific University and has provided low vision evaluations for over 100 students annually for over 15 years. Jan has coordinated local student and community health screenings for decades, in addition to serving on OLSHF’s Board of Trustees, Patient Care Committee, Mobile Health Screening Committee, Resource Development Committee, and the Bylaws, Governance, & Policy Committee.
The Five Star Service Award Program is a special way to acknowledge what the Lions of Oregon and Northern California provided to the Foundation over the last year.

This year we successfully advocated for education funding to provide vision screenings for students. Oregon House Bill 5105 allots schools $2 million dollars for the biennium, double the previous budget. More Oregon students will receive vision screenings and more students who have potential vision issues will be referred for comprehensive eye exams and follow-up care.

Our 2020 School Vision Screening staff, with the help of volunteers all over the state, operate one of the premier school vision screening programs in the country. Last year we screened 176,005 Oregon students at 583 events. We use the state-of-the-art Spot™ device, which objectively and quickly screens for multiple eye conditions. From those screenings, over 19,000 students were referred for a comprehensive eye exam.

In partnership with the KEX Kids Fund, OLSHF provides assistance to students who may not otherwise be able to afford care. The fund provides students with free comprehensive eye exams, eyeglasses, as well as hearing aids. Last year 856 students were referred to this program through their school nurses, who are an integral part of our vision screening and continuum of care that we provide for children in our community.
THE NEED FOR VISION CARE ACCESS FOR CHILDREN

Oregon has one of the lowest graduation rates in the United States—49th out of 50. We know that vision health is a crucial component of any student’s success in the classroom, which is why we relentlessly advocate for increased access to screening and follow-up care. The Oregon Optometric Physician Association estimates that 60% of students identified as “problem learners” have undetected vision issues. Preliminary studies from Pacific University also indicate that children who fail vision screening perform on average 10% lower on standard testing than those who pass. Even when vision issues are detected, too many students in our community are not able to afford eye exams or eyeglasses. Our programs aim to not only detect the issues, but provide resources for care to families and children who need it.

We see a future where every child in Oregon has their vision screened, access to the care they need, and is ultimately set up for success in the classroom and in life.

—Dr. J.P. Lowery, Pacific University
In partnership with Lions Clubs and health and human services organizations, OLSHF provides vital health checks to vulnerable, underserved, and marginalized communities all over the state. We provide screenings for glaucoma, blood pressure, blood glucose, hearing, and vision.

One of our most memorable screening events of the year was a multi-organizational collaboration with the Oregon Vision Coalition (comprised of OLSHF, Casey Eye Institute, OOPA, Pacific University College of Optometry Community Outreach, and others), YVFWC Coastal Family Health and the Lions Clubs of Rockaway, Cloverdale-Nestucca, Astoria, Garibaldi, and Tillamook. We provided extraordinary services, in just a single day:

- **117** individuals screened
- **83** eyeglass prescriptions written
- **28** referrals for further care
- **64** pairs of eyeglasses distributed

We recognize the importance of connecting individuals to follow-up care after they’re screened. When Christine (pictured above with Rockaway Lion Terry Bowman) came to our event, her vision was so impaired she needed a friend to help her walk. She was diagnosed with very dense cataracts, but with the support of our Mission Cataract program and Devers Eye Institute, she was able to have the surgery she needed and have her vision restored.
Each year OLSHF works with an independent firm to audit our financial statements of activities, functional expenses, and cash flows for the prior fiscal year. OLSHF continues to rely upon other foundations and grant making agencies, corporate and individual donations, and has worked to increase the amount of program service fees received. A part of OLSHF’s focus this past year consisted of strategic planning to expand both our 2020 School Vision Screenings and our Eyeglass Assistance programs.

Over 85% of OLSHF expenses are directed towards program services with less than 15% being spent on fundraising or administrative efforts. Even better, OLSHF’s long term investments are able to provide enough funds annually to entirely cover what is spent on fundraising and administrative efforts. This means 100% of every single donation given to OLSHF is spent entirely on patient and program services. Through those patient and program services, we screened, treated, saved, or restored sight and or hearing for over 200,000 children and adults in Oregon and N. California.

COME SEE US!

PROCEEDS BENEFIT THE LEAP OPTICAL PROGRAM

OLSHF is committed to fostering an inclusive environment where the individual differences among us, that which makes us unique, including but not limited to race, ethnicity, gender, and sexual orientation, are understood, respected and appreciated, recognized as a source of strength for the Foundation, and are valued as qualities that enrich the environment in which we work and provide service to others.
